

RETRACTABLE AWNINGS

**Weather protection
that looks great!**

Enhance your home or your workplace with a Total Cover Retractable Awning.

Retractable awnings are a great solution to provide sun protection. With no supporting frames or posts, it's there when you need it, and right out of the way when you don't.

- Weather Protection that Looks Great
- Protects from UV-rays and the summer heat
- Reduces glare
- Keeps out heat
- Reduces furniture and floor fading (inside and out)
- Fully customisable and designed to fit your space
- Wind and motion sensors available on request for extra reassurance
- Customised powdercoating available for all Total Cover awnings

The 'Santana' Classic

The 'Santana' Classic is a basic awning model which comes without encasing. This is our most popular retractable awning model. The awnings are made from robust aluminium and this model is the most affordable for Kiwi homes and businesses.

Size Range

Width - 2.5m to 8m

Projection - 1.5m to 4m

Beaufort Scale

5-6

average wind speed 30-40km per hour

Available Options

- Pelmet cover and end caps
- Motorised options
- Powder coating
- Valance - straight or wavy

Fetuna Cassette

The Fetuna Cassette awning is a premium and stylish full cassette retractable awning. It comes with the full encasing to finish the look. When retracted you do not see any mechanics. It completely folds away.

Size Range

Width - 3.6m to 6m

Projection - 2.5m to 4m

Beaufort Scale

5-6

average wind speed 30-40km per hour

Available Options

- Pelmet cover and end caps
- Automation with remote control

The Integral

The Integral Cassette is compact in size and renowned for its reliability, thanks to quality components that have long-served the European awning market.

Easy to install and operate, the awning can be retracted when not in use, ensuring the canvas and folding arms are completely concealed and not compromised by the elements. For effective sun protection, ease of use and style – the Integral Cassette is an excellent option for all environments.

Size Range

Width - 3.6m to 6m

Projection - 2.5m to 4m

Beaufort Scale

5-6

average wind speed 30-40km per hour

Available Options
